

1. Declaration

I, yicheng liang, declare that this assignment, titled **A3: Advanced Application Development**, is my own original work and has not been copied from any other source except where explicitly acknowledged. I have not engaged in plagiarism, collusion, or any other form of academic misconduct in the preparation and submission of this assignment. All sources of information and data used in this assignment have been properly cited and referenced in accordance with the prescribed guidelines. I have not used unauthorized assistance in the preparation of this assignment and have not allowed any other student to copy my work. I am aware that any breach of academic integrity may result in disciplinary action as per the [policies of Monash University](#), which may include failing this assignment or the course, and further academic penalties.

2. Github Check

Enter your Github details here.

Github Username <i>Enter your username here</i>	<yliia0127-byte>
Repository Shared? <i>Have you started and shared your assignment repository with your tutor yet?</i>	< https://github.com/yliia0127-byte/badminton-for-health.git >

3. Self-Evaluation

Rate your performance for each criteria. Put a ☒ (tick) in the box where you think your work belongs.

Criteria	Exceeds Expectations	Meets Expectations	Needs Improvement	Fail to meet expectations
BR (D.1): External Authentication	☒			
BR (D.2): Email	☒			
BR (C.3): Interactive Table Data	☒			
BR (D.4): Deployment to the	☒			

Cloud				
BR (E.1): Cloud Functions	✓			
BR (E.2): Geo Location	✓			
BR (E.3): Accessibility	✓			
BR (E.4): Export	✓			
BR (F.1): Innovation				✓

4. Screen Recording of BRs

Create a 3-5 minute video showing your basic web application in action! Upload this video to your Google Drive and put the link here (ensuring that you have updated the access list so its not private).

5. BR F.1 - Innovative Features

If you have implemented BR F.1, list your choices below and a brief description of how you implemented it.

0	Exact name of innovative feature (copy-paste from assignment specs). E.g. "Bulk Email: The new Web Application must be able to send bulk email to selected users."	A brief, specific description (10-20 words) about how you implemented this in your web application. E.g. "I implemented bulk email to enable staff in my health charity website to send emails to multiple patients."	Recommendations for future upgrades (10-50 words)

6. Reflections: Challenges

What has been the most challenging part of this assignment for you? How has this stretched you as a programmer?

The most challenging parts of the project include debugging and the use of email APIs. Due to the front-end and back-end integration of the project, it greatly increases the difficulty of debugging. The email API is mainly due to insufficient platform reliability (continuous error messages from sendgrid).

7. Declaration: Additional Help

Any tools that you used (including Gen AI or existing code reuse) must be declared here.

Note: GenAI is not allowed for coding purposes in any assignment,

However, you may use GenAI for brainstorming, problem solving and learning. You need to declare all such uses here. One row per help used. More details on how to acknowledge the use of Gen AI can be found [here](#).

Name	Description
<i>Example: ChatGPT for brainstorming ideas</i>	<i>I used ChatGPT to brainstorm how to do X because I was feeling stuck with Y problem.</i>
<i>ChatGPT for generating text for website</i>	<i>I used ChatGPT to write the text for 'about us' and 'homepage'.</i>
